Statement by the Chair of the ICBA Board of Directors

In the face of some challenges last year, ICBA continued its efforts on making a difference in the lives of some of the most vulnerable communities in marginal environments around the world with increased vigor and focus. Committed to improving, among other things, rural livelihoods through excellence in research for development, the center carried on its mission of delivering solutions for sustainable agriculture under marginal conditions.

The past year marked the end of the first Business Plan 2013-2016, which provided focus and direction for the center's activities for four years. So ICBA conducted an extensive analysis of its previous work and completed a major exercise to devise a new three-year business plan. The Business Plan 2017-2019 both builds on past efforts and improves on the first plan. It specifically reflects ICBA's commitment to the United Nations Sustainable Development Agenda 2030, whereby all research projects and programs are now aligned with the six Sustainable Development Goals which are most relevant to ICBA's mandate. What is more, the Business Plan 2017-2019 also incorporates a new business model allowing the center to shift to a full-cost recovery model over three years gradually as a measure towards mitigating financial risks, strengthening its financial position and supporting the center's growth. On the research side, ICBA had a successful year. Scientists began a number of new projects, including an International Fund for Agricultural Development-funded project called Rehabilitation and management of salt-affected soils to improve agricultural productivity to fight salinity in Ethiopia and South Sudan.

In collaboration with the Environment Agency - Abu Dhabi (EAD) and a research team from Plant & Food Research, a New Zealand-based science company, and Massey University, New Zealand, ICBA carried out a study into water use efficiency of irrigation of date palms with saline water. The study showed that considerable savings of water could be achieved with real-time irrigation.

In collaboration with the Ministry of Climate Change and Environment of the UAE (MoCCaE), ICBA initiated a new project to examine the economic potential of *Salicornia* production in coastal regions by using non-conventional water resources (canal water, aquaculture effluents and seawater).

Under another project, the center carried out research on the feasibility of saffron production in Afghanistan. It also continued efforts to improve transboundary water management under the long-term Collaborative Program Euphrates and Tigris.

In recognition of its work on climate change adaptation and mitigation in the MENA region, ICBA was appointed the lead organization for crop modelling and climate change in the international Half a degree Additional warming, Prognosis and Projected Impacts (HAPPI) project led by the University of Oxford.

The center's work also translated into quality scientific output; ten articles were published in international high impact-factor peer-reviewed journals.

Another highlight was the organization of the international conference titled "Quinoa for Future Food and Nutrition Security in Marginal Environments" in December. The conference brought together more than 150 participants from over 48 countries.

The center also opened the first-of-its-kind Emirates Soil Museum with support from the Abu Dhabi Fund for Development, EAD and MoCCaE.

ICBA also continued to forge relationships, having formalized its collaboration through memorandums of understanding with 13 research, funding and implementation partners. On the capacity development side, 118 women and men completed ICBA's advanced specialized training programs. In partnership with the Gates Foundation and the IDB, the center also started the inception phase of a pioneering Arab Women Fellowship Leadership Program (*Tamkeen*). ICBA also launched a research grant competition in collaboration with CRDF Global for young Arab researchers in the MENA region.

In view of potential changes to the center's core funding by 2020, the management also focused considerable efforts on diversifying sources of funding and streamlining resource allocation within the center. It took steps to establish an ICBA *Waqf* and the Endowment Fund in collaboration with the IDB and the Government of the UAE. On the financial side, the center remains in good health. The expenditure for 2016 increased by 1% (\$12.01 million in 2016; \$11.85 million in 2015). The center's financial position remains stable, with total assets of \$22.52 million (\$25.30 million in 2015) and net assets of \$16.95 million (\$17.46 million in 2015).

The reserves, when expressed in terms of operating days, are strong as compared to the standards set by other similar international research organizations. The center did not operate an overdraft with any of its bankers during the year. The short-term solvency (liquidity) as at 31 December 2016 was 303 days (323 days in 2015) against a benchmark of 90-120 days. The long-term financial stability (adequacy of reserves) as at 31 December 2016 was 292 days (296 days in 2015) against a minimum benchmark of 90 days.

On behalf of the Board of Directors of ICBA, I would like to thank the management and staff for their commendable performance and dedication to the center's mission despite many challenges. I also wish to thank the many donors and partners of ICBA for their continued support and commitment to the center's work.

Professor Abdulrahman Sultan Alsharhan

Chair of the ICBA Board of Directors

Date: 18 April 2017

STATEMENT OF THE MANAGEMENT'S RESPONSIBILITIES

The International Center for Biosaline Agriculture has opted to use the accounting framework described in the Financial Guidelines Series No. 2 (Revised February 2006 and supplemented by 2015 Advisory Note) used by the Consortium of Centres of the Consultative Group on International Agricultural Research (CGIAR) that requires management to prepare financial statements for each financial year that give a true and fair view of the state of affairs of the Centre as at the end of the financial year and of its operating results for the year.

It also requires management to ensure that the Centre keeps proper accounting records that disclose, with reasonable accuracy, the financial position of the Centre. Management is also responsible for safeguarding the assets of the Centre.

Management accepts responsibility for the preparation and fair presentation of financial statements which are free from material misstatements whether due to fraud or error. They also accept responsibility for:

- i. Designing, implementing and maintaining internal control necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error;
- ii. Selecting and applying appropriate accounting policies; and
- iii. Making accounting estimates and judgements that are reasonable in the circumstances.

Management is of the opinion that the financial statements give a true and fair view of the state of the financial position of the Centre and of its operating activities for the year, in accordance with the CGIAR Accounting Policies and Procedures Manual – Financial Guidelines Series No. 2 (Revised February 2006 and supplemented by 2015 Advisory Note).

Nothing has come to the attention of management to indicate that the Centre will not remain a going concern for at least twelve months from the date of this statement.

Dr. Ismahane Elouafi Director General Mr. Laksiri Abeysekera Corporate Services Director

REPORT OF THE INDEPENDENT AUDITOR'S TO THE BOARD OF DIRECTORS OF INTERNATIONAL CENTER FOR BIOSALINE AGRICULTURE

Opinion

We have audited the financial statements of International Center for Biosaline Agriculture (the "Center") which comprise the statement of financial position at 31 December 2016 and the statement of activities, statement of changes in net assets and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2016 and its financial performance and its cash flows for the year then ended in accordance with accounting policies set out in note 3.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Center in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (the "IESBA Code") together with the ethical requirements that are relevant to our audit of the financial statements in the United Arab Emirates, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of management and Board of Directors for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting policies set out in note 3, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Center' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Center or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Center's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

REPORT OF THE INDEPENDENT AUDITOR'S TO THE BOARD OF DIRECTORS OF INTERNATIONAL CENTER FOR BIOSALINE AGRICULTURE (continued)

Auditor's responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Center's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Center's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Center to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2016

1 REPORTING ENTITY

International Center for Biosaline Agriculture, Dubai, (the "Center"), is an international research and development institution, established in pursuance of Articles of Agreement signed between the Islamic Development Bank (IDB) and the Government of the United Arab Emirates (Government) in 1996 (Hijri 1416). The Center commenced its operations in Dubai, United Arab Emirates in September 1999. The registered address of the Center is P.O. Box 14660, Dubai, United Arab Emirates.

The Center is a not for profit organization. The principal activities of the Center is to undertake research and development and to facilitate the transfer and use of biosaline agriculture technology in the areas of cultivation and production of crops, forages, ornamentals, trees and plants that are salt tolerant.

An agreement was signed between the Government and IDB on 23 June 1996, whereby it was agreed that IDB would finance the Center and cover the operational budget for 10 years from the commencement of its operations, within a budget limit allocated by IDB. The support from IDB under the above agreement came to a conclusion at the end of 2009. On 12 April 2010, a new agreement was signed, effective 1 January 2010, between the Government and IDB ("Basic Agreement") to co-finance the activities of the Center up to 2014. As per the agreement, the Government and IDB will make an annual contribution of US\$ 5 million and US\$ 2 million respectively over a period of 5 years ending 2014. On 24 June 2014 an appendix for amending the Basic Agreement was made between the Government and IDB to extend the validity of the Basic Agreement for 5 years commencing from 1 January 2015.

2 BASIS OF PREPARATION AND MEASUREMENT

Basis of preparation

The financial statements have been prepared in accordance with the accounting policies recommended by CGIAR financial guidelines contained in the Accounting Policies and Procedures Manual (Revised February 2006 and supplemented by 2015 Advisory Note). The CGIAR recognises that in certain respects, the existing International Financial Reporting Standards (IFRSs) do not cover issues unique to not-for-profit organizations. Therefore, the CGIAR has developed the Accounting Policies and Procedures Manual (CGIAR Financial Guidelines 2, February 2006) which draws on other widely applied standards to provide guidance on these matters.

The preparation of financial statements in accordance with the accounting policies recommended by CGIAR Financial Guidelines No. 2 (Revised February 2006 and supplemented by 2015 Advisory Note) requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Center's accounting policies. The areas involving a higher degree of judgement or complexity, or whose assumptions and estimates are significant to the financial statements, are disclosed in Note 4.

Basis of measurement

The measurement basis applied is the historical cost basis except where otherwise stated in the accounting policies below.

Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Centre operates (the "Functional Currency") which is AED. These financial statements are presented in US Dollars (USD), which is the Centre's Presentation Currency. All financial information presented in US dollars has been rounded to the nearest thousand. UAE Dirhams is currently pegged to US Dollars.

3 SIGNIFICANT ACCOUNTING POLICIES

Revenue recognition

Revenue is the gross inflow of economic benefits during the year arising in the course of the ordinary activities of the Center where those inflows result in increases in net assets. The Center recognises revenue when:

- the inflows can be reliably measured;
- it is probable that future economic benefits will flow to the Center; and
- when specific criteria have been met of the Center's activities as described below.

Revenue is measured at fair value of the consideration received or receivable.

The major portion of the Center's revenue is normally derived through the receipt of donor grants – either "Unrestricted" or "Restricted".

Other revenue and gains are increases in net assets resulting from the Center's peripheral or incidental transactions and other events and circumstances affecting the Center, other than those that result from grants. These are categorized as unrestricted.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2016

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition (continued)

Revenue is recognized as follows:

i) Grant revenue

Grants are recognized as revenues only when the conditions have been substantially met or the donor has explicitly waived the conditions.

Unrestricted grant revenue

Unrestricted grants are recognized as revenue upon unconditional transfer of cash or other assets by donors. Such revenue is recognized in full in the financial period specified in commitments made by donors.

Restricted grant revenue

Restricted grants are recognized as revenue when there is reasonable assurance that the conditions attached to them have been complied with, and that the grants will be received.

ii) Donations in kind

Donations in kind are recognized at the fair value of the goods or services received or in the absence of this, at the amount attributed to them by the donor.

iii) Other revenue and gains

Other revenue and gains are recognized in the period in which they are earned.

Foreign currency translations

Transactions and balances

All foreign currency transactions are recorded, on initial recognition, in the Center's functional currency by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction.

At each period end date:

- Foreign currency monetary items are reported using the closing rate;
- Non-monetary items denominated in foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transaction; and
- Non-monetary items denominated in foreign currency which are carried at fair value are reported using the exchange rates that existed when the values were determined.

Exchange differences are recognized as revenue or expense in the statement of activities in the period in which they arise.

Cash and cash equivalents

Cash comprises cash on hand, petty cash funds, currencies awaiting deposit and local or foreign currency, deposits in bank which can be added to or withdrawn without limitation and are immediately available for use in current operations.

Cash equivalents are short-term highly liquid investments that are both readily convertible to known amounts of cash; and so near their maturity dates that they present insignificant risk of changes in value because of changes in interest rates.

Cash is valued at face value.

Cash and cash equivalents in currencies other than the USD are recorded at market rates, in effect at the time of transaction and restated to the equivalent US dollar amount at prevailing market rates as of the reporting date of the statement of financial position.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2016

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

Short-term deposits

These comprise deposits that are (a) acquired with original maturity of more than three months but not exceeding one year, and (b) deposits that are originally long-term in nature but are currently due to mature within one year of the date of the statement of financial position.

Deposits are initially recorded at their acquisition cost. Interest relating to short-term deposit is reported in the statement of activities as revenue.

Receivable

Receivable from donors consist of claims from donors for grants pledged in accordance with the terms specified by the donor. It also pertains to claims from donors for expenses paid on behalf of projects in excess of cash received.

Recognition

- Unrestricted grants: receivables from unrestricted grants should be recognized in full in the period specified by the donor. Before an unrestricted grant can be recognized as revenue, sufficient verifiable evidence should exist documenting that a commitment was made by the donor and received by the Center.
- Restricted grants: receivables from restricted grants will be recognized in accordance with the terms of the underlying contract.

Valuation

- All receivable balances are valued at their net realizable value, calculated as the gross amount of receivable minus any allowances provided for doubtful accounts.
- Allowance for doubtful accounts are provided in an amount equal to the total receivables shown or reasonably estimated to be doubtful of collection. The amount of the allowance is based on past experiences, and on a continuing review of receivable aging reports and other relevant factors.
- Any receivable or portion of receivable adjudged to be uncollectible is written off. Write-offs of receivables are done via the allowance for doubtful accounts after all efforts to collect have been exhausted.

Due from employees

Receivables from employees are recognised as they arise and cancelled when payment is received.

Other receivables

Other receivables are recognized upon the occurrence of event or transaction which gives the Center a legal claim against others.

Impairment and uncollectibility of financial assets

The Center assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults. Impairment is determined as follows:

- For assets carried at fair value, impairment is the difference between cost and fair value, less any impairment loss previously recognized in the statement of comprehensive income;
- For assets carried at cost, impairment is the difference between the carrying value and the present value of future cash flows discounted at the current market rate of return for a similar financial asset; For assets carried at amortized cost, impairment is the difference between the carrying amount and the present value of future cash flows discounted at the original effective interest rate.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2016

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

Property and equipment

An item of property and equipment should be recognised, as an asset, at cost, when it is probable that the future economic benefits associated with the asset will flow to the Center; and the cost associated with the asset will flow to the Center; and the cost of the asset can be measured reliable.

Depreciation of the property and equipment is the systematic allocation of the depreciable amount of an asset over its useful life.

The estimation of the property and equipment useful lives was changed as per the Board of Directors' approval in their May 2016 meeting to be effective from July 1, 2016.

| Building | 25 to 40 years (2015: over 50 years) |
|------------------------|--------------------------------------|
| Research equipment | 3 to 8 years (2015: over 10 years) |
| Irrigation equipment | 3 to 8 years (2015: over 20 years) |
| Farm equipment | 3 to 8 years (2015: over 14 years) |
| Generators | 5 to 10 years (2015: over 10 years) |
| Furniture and fixtures | 3 to 8 years (2015: over 10 years) |
| Computer | 3 to 5 years (2015: over 3 years) |
| Motor vehicles | 3 to 5 years (2015: over 7 years) |

The gain or loss arising on the disposal or retirement of an item of property and equipment is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in statement of activities.

The cost of the self-constructed property and equipment would include direct cost of material and labor as well as indirect cost and incremental overhead specifically identifiable or traceable to the construction. Financing costs that are attributed to a construction project and that are incurred up to the completion of the construction are also included in the gross carrying amount of the asset to which they relate.

Property and equipment acquired through the use of grants restricted for a certain project is recorded as an asset. Such assets are depreciated at a rate of 100% over the useful life of the asset and the depreciation expense charged directly to the appropriate restricted project.

In addition to charging annual depreciation expense, it is the Center's policy to provide for the future renewal of fixed assets by way of an appropriation from unrestricted net assets.

Accounts payable

These represent amounts due to donors, employees and others for support, services and or materials received prior to year-end but not paid for as of the reporting date.

Accounts payable to donors include grants received from donors for which conditions are not yet met and amounts payable to donors in respect of any unexpended funds received in advance for signed contracts.

Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities.

Measurement:

- Current liabilities are carried at the amount to be paid.
- Long-term liabilities are shown at the present or discounted value of the future net cash outflows expected to be made to settle the liabilities in the normal course of operations.

Accruals

Accruals represent liabilities to pay for goods and services that have been received, supplied, invoiced or formally agreed with suppliers.

Accruals are recorded in the accounting records and reported in the financial statements of the periods to which they relate as the transactions or events occur.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2016

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

Staff terminal benefits

The Center provides end of service benefits to its expatriate employees. The entitlement to these benefits is based upon the employees' salary and length of service, subject to the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment.

Pension contribution for local employees

National employees participate in the local government pension fund to which the employee and the Center contribute a specified percentage of salary. Contributions to the pension funds are charged to the statement of activities in the year in which they fall due

Termination benefits

Termination benefits are recognized as an expense when the Center is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognized as an expense if the Center has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be reliably estimated.

Provisions

Provisions are recognised when the Center has a present obligation (legal or constructive) as a result of a past event, it is probable that the Center will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the expenditure required to settle the present obligation as at the reporting date.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. A provision should only be used for expenditures for which the provision was originally recognised.

Overhead cost recovery

Overhead cost recovery represents the overhead costs recovered from restricted projects based on the rates agreed and as stated in each project document with donors. Cost ratios are computed on the basis of provisions of CGIAR Financial Guidelines 5.

Net assets

Net assets are the residual interest in the Center's assets remaining after liabilities are deducted. The overall change in net assets represents the total gains and losses generated by the Center's activities during the period as determined by the particular measurement principles adopted and disclosed in the financial statements.

Net assets are classified as either undesignated or designated.

- Undesignated: that part of net assets that are not designated by the Center's management for specific purposes.
- Designated:
 - Use of assets has been designated by the Center management for specific purposes such as reserve for replacement of property and equipment and net investment in property and equipment. Designation from undesignated net assets is made on an annual basis based on Board of Directors' approval.
 - The Board of Directors may also designate net assets to mitigate or counter unforeseen eventualities, funding reductions and currency risks that pose serious risks for business continuity.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2016

4 USE OF ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Although management believes the estimates and assumptions used in preparation of these financial statements were appropriate in the circumstances, actual results could differ from those estimates and assumptions. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. The critical areas of accounting estimates and judgements in relation to the preparation of these financial statements are as set out below:

• Critical judgements in applying accounting policies

In the process of applying accounting polices recommended by CGIAR financial guidelines, management has made judgement in determining:

- The classification of financial assets and liabilities
- Whether financial and non-financial assets are impaired.
- Key sources of estimation uncertainty

Impairment of assets

At each reporting date, the Center reviews the carrying amount of its assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment.

Property and equipment

Critical estimates are made in determining the useful lives and residual values to property and equipment based on the intended use of the assets and the economic lives of those assets. Subsequent changes in circumstances or prospective utilization of the assets concerned could result in the actual useful lives or residual values differing from initial estimates.

Staff separation costs

At each reporting date, the Center provides for the estimated staff separation costs which comprise gratuity and repatriation. Gratuity is based on the number of years worked for the Center and related basic salary. Repatriation is based on the prevailing air ticket rates and the appropriate allowance based on the HR Policies.

5 CASH AND CASH EQUIVALENTS

| | 2016 | 2015 |
|---|---------|---------|
| | USD'000 | USD'000 |
| Cash at hand | 7 | 7 |
| Bank balances | 9,793 | 9,692 |
| Fixed deposits | 5,448 | 7,609 |
| Less: Fixed deposits with original maturity beyond three months | (5,448) | (7,609) |
| | 9,800 | 9,699 |
| | | |

Fixed deposits represent short term deposits with a maturity of beyond 3 months but less than 12 months from the date of deposit. The short-term deposits carry an interest at the prevailing market rates.

| Net book value At 31 December 2015 | 4,120 | 250 | 1,174 | 224 | 4 | 800 | 302 | 91 | 325 | 7,290 |

As per an agreement between the Government of the U.A.E. ('Government") and the IDB regarding the establishment of the Center, the Government provided the land and facilities for the Center. The building is constructed on a plot of land which is temporarily donated by the Government for use by the Center so as long as it continues to pursue its stated objectives. Accordingly, the plot of land on which the building is constructed is not treated as an asset belonging to the Center. \odot

Last year property and equipment purchased USD 95 thousand from restricted grant which was depreciated and did not form part of property and equipment of the Centre. During the year, the Center passed adjusting entry to capitalise the asset and recognized the depreciation in the accumulated depreciation. No impact on depreciation. \equiv

During the year, green house included in property and equipment amounting to USD Nil (2015: USD 38 thousand) has been transferred to unrestricted expenses.

Change in estimate

With effect from 1 July 2016, the Center has revised the useful lives of property and equipment. The revised useful lives were based on the management's estimate and are disclosed under the significant accounting policies (note 3). Had the Center charged depreciation at the old rates, the deficit for the year would have been lower by USD 343 thousands. This change will increase the depreciation charge in the future years as well until the property and equipment are fully depreciated.

As at 31 December 2016

16 NET ASSETS

The level of net assets recommended by the CGIAR is 75-90 days of operating expenses excluding depreciation. As at 31st December 2016, the Center's net assets represented 292 days (2015 – 296 days) of the operating expenses excluding depreciation.

Net assets include both the designated and undesignated portions.

Undesignated

The actual balance in the undesignated portion at 31st December 2016 is US\$ 1,573 thousand (2015 - US\$ 2,231 thousand), which is presented as unrestricted (undesignated) net assets. The deficit for the year of US\$ 658 thousand (2015 – surplus of US\$ 117 thousand) represents the total losses incurred by the Center during the year.

Designated

a) Net investment in property and equipment

A portion of unrestricted net assets has been appropriated by the Board of Directors to reflect net investment in property and equipment.

The balance of US\$ 6,601 thousand (2015: US\$ 7,290 thousand) at 31 December 2016 comprises the balance brought forward from 2015 and the current year's net decrease in fixed assets of US\$ 689 thousand (2015: decrease of US\$ 176 thousand).

b) Reserve for acquisition and replacement of property and equipment

Each financial year the Center appropriates from the unrestricted net assets an amount equal to the movement in the net book value of the property and equipment and any other specific allocation into a reserve designated to meet the acquisition and replacement costs for property and equipment items.

The net balance of US\$ 4,925 thousand (2015 - US\$ 4,089 thousand) at 31 December 2016 represents unspent funding available for use by the Center in future years for acquisition and replacement of property and equipment.

c) Emergency/Contingency

The Board of Directors has approved to designate \$3.8M to fund temporary funding gaps or unforeseen events without jeopardizing the momentum of the research programs.

22 CONTINGENT LIABILITIES AND COMMITMENTS

Contingent liabilities

At 31 December 2016, the Center had no contingent liabilities in respect of bank guarantees arising in the ordinary course of business from which it is anticipated that no material liabilities will arise (2015: Nil).

Commitments

The Center had no capital commitments as at 31 December 2016 (2015: Nil).

23 FINANCIAL INSTRUMENTS

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. At the reporting date, the Center is exposed to significant interest rate risk on its interest bearing assets short term deposits. At the reporting date, the interest rate profile of the Center's interest bearing financial instruments is:

| | Increase/ (decrease) in basis points | Effect on surplus for one year increase/ (decrease) USD'000 |
|------------------|---|--|
| 31 December 2016 | 100 (100) | 54 (54) |
| 31 December 2015 | 100 (100) | 76 (76) |

NOTES TO THE FINANCIAL STATEMENTS

As at 31 December 2016

23 FINANCIAL INSTRUMENTS (continued)

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Center is exposed to credit risk fromts operating activities primarily from bank balances, short-term deposits, receivables from donors, other receivables and due from employees. Credit risks on liquid funds are limited as they are held with reputable banks registered in the U.A.E. The maximum exposure of credit risk at the reporting date is the carrying value of each class of financial assets.

Currency risk

Foreign currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Center is not exposed to any significant currency risk as Center limits its transactions to UAE Dirhams or US Dollars; UAE Dirhams is currently pegged to US Dollars.

Fair values

Financial instruments include financial assets and financial liabilities which comprise receivables, cash and bank balances, short term deposits and payables.

The fair value of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The fair values of financial instruments are not materially different from their carrying values.

24 COMPARATIVE INFORMATION

Certain amounts in statement of financial position at 31 December 2015 and the the statement of activities for the year ended 31 December 2015 have been reclassified in order to conform to the presentation for the current year. These changes also affected the related items in the statement of cash flows and statement of changes in net assets and have been made to improve the quality of information presented. Such reclassification does not affect previously reported surplus.

The table below summarises the reclassification for the line items affected.

Statement of financial position:

| At 31 December 2015 | As previously reported USD '000 | Reclassification USD '000 | As reclassified USD '000 |
